Dear Montana Partnership Taxpayers,

The Montana Department of Revenue is continuing our efforts to become more modern, efficient and customer-focused, with the goal of making it simpler and more convenient for taxpayers to do business with us.

The 2004 Montana Partnership Information and Composite Tax Return will be processed on our newly installed Integrated Revenue Information System (IRIS). With this transition to a new system, you will see several changes to the format and filing requirements of Form PR-1.

- The partnership information and composite tax return will now be filed under one return, with new schedules replacing the various forms required to be filed in the past.
- Form PT-AGR (Pass-Through Entity Owner Tax Agreement) replaces the old Form PT-NRA. Form PT-AGR incorporates both nonresident individuals and foreign C. corporation owners. For tax year 2004, Form PT-AGR replaces both Form PT-NRA and the old PT-CON. The signed PT-AGR filed with your 2004 information return will not be required to be submitted in subsequent years.
- Estimated payments made throughout 2005 by an partnership on behalf of participant partners of a composite return will now be submitted with the pass-through entity coupon PT. Please do not submit estimated payments with the individual income tax coupon IT, as was required in the past. If you need new coupons for 2005, please contact us.
- The pass-through entity will be required to submit with their information and composite tax return a copy of their federal S. Corporation or Partnership return along the federal Schedule K-1 for each owner of the pass-through entity.

As always, you may e-mail the Department of Revenue with any questions, requests, comments or suggestions. The e-mail address is jpurcell@state.mt.us.

General Information

Who Must File Form PR-1

A partnership engaged in business in Montana and who has Montana source income must file an annual Montana Partnership Information Return (Form PR-1). A copy of Federal Form 1065, including all federal Schedule K-1's, must be attached to Form PR-1.

Period Covered by the Return

The 2004 Form PR-1 must be filed for the calendar year 2004 or fiscal year beginning in 2004. A partnership reporting for a fiscal year or filing a short-period return must enter the beginning and ending dates of the taxable year in the space provided at the top of the return.

The taxable year for Montana must be the same as used for federal income tax purposes. If a partnership changes its federal taxable year, it must change the Montana taxable year accordingly. A copy of the approval

from the Internal Revenue Service to change accounting periods must accompany the first return that reflects the change.

Montana Source Income

A partnership has Montana source income if the separately and nonseparately stated income, gain, loss, deduction or credit, or items of income, gain, loss, deduction or credit, is derived from a trade, business, occupation or profession carried on in Montana, or is derived from the sale or other transfer, or the rental, lease, or other commercial exploitation, of property located in Montana.

What Must be Filed

A partnership with only Montana resident partners is not required to complete Schedules IV and V, or Forms PT-AGR and PT-STM.

A partnership that has a partner who is a nonresident individual, foreign C. corporation or a second-tier pass-through entity at any time during the tax year must include with the filing of Form PR-1:

- Schedule IV (Montana Composite Income Tax Schedule) for eligible partners who elect to participate in a composite filing.
- Schedule V (Pass-through Entity Withholding Estimated Payment Schedule) for a nonresident individual, foreign C. corporation, or a second-tier pass-through entity partner who is not participating in the partnership's composite return or who has not provided the partnership with a signed Form PT-AGR or Form PT-STM.
- Form PT-AGR (Montana Pass-Through Entity Owner Tax Agreement) executed by the nonresident individual or foreign C. corporation agreeing to timely file, pay and be subject to personal jurisdiction of the State of Montana.
- Form PT-STM (Montana Second-Tier Pass-Through Entity Owner Statement) executed by the second-tier pass through identifying the owners of the second-tier pass-through entity and establishing that its Montana source income will be fully accounted for in filed Montana individual or corporation tax returns.

The pass-through entity is not required to attach a new Form PT-AGR or Form PT-STM each year but must attach currently effective agreements or statements for each new nonresident individual, foreign C. corporation or second-tier pass-through owner and must retain the agreements or statements of other owners as tax records.

When and Where to File

The Montana filing period is the same as your federal filing period. For a calendar year partnership, Form PR-1 is due on or before April 15 following the close of the taxable year. For a fiscal year partnership, Form PR-1 is due on or before the 15th day of the 4th month following the close of the tax year.

A partnership does not have to request in writing a Montana extension of time to file when the partnership has been granted an extension of time to file its federal return. Montana will accept up to an approved six-month federal

extension upon filing with the Internal Revenue Service federal extension Forms 8736 and 8800. This extends the time for filing Form PR-1 and its supporting schedules and, where applicable, Forms PT-AGR and PT-STM. An extension of time to file Montana Form PR-1 is not an extension of time for payment of any composite tax.

Mail the Partnership Information and Composite Tax Return to:

Montana Department of Revenue
P.O. Box 8021
Helena, MT 59604-8021

Who Must Sign the Return?

Form PR-1 must be signed and dated by a general partner or limited liability company member. Form PR-1 is not considered to be complete unless it is signed. If the partnership has an outside accounting firm or individual prepare Form PR-1, the name, address and telephone number of the tax preparer must be included on the return.

Tax Preparer Contact

To streamline resolution questions related to the partnership's information return and its supporting schedules, the partnership may authorize the Department of Revenue to contact the tax preparer. Placing an "X" in the box authorizing the department to discuss the return with the tax preparer can significantly improve the processing of the return.

Amended Return

Use Form PR-1 to amend an original return. Indicate at the top of the form that this represents an amended filing and check the box indicating the reason(s) for amending the return. Attach the applicable forms and statements explaining all adjustments in detail. Complete the entire Form PR-1 and its applicable schedules using the correct amounts. If the amended return results in a change to income, or a change in the distribution of any income or other information provided any partner, an amended federal Schedule K-1 must also be filed with the amended Form PR-1 and given to the partner.

If the Internal Revenue Service changes or makes corrections to the federal Form 1065, or the partnership amends the federal return, an amended Form PR-1 must be filed within 90 days of receiving the Internal Revenue Service's notification of the corrections made to federal Form 1065.

The penalty is \$10 multiplied by the number of partners at the close of the tax year for each month or fraction of a month, not to exceed five months, that the entity fails to file the information return. The late file penalty is not imposed on an entity that has ten or fewer partners if the partners have filed the required tax returns or other reports timely and have paid all taxes when due.

Instructions for Montana Schedule I

Multistate Partnership Apportionment Factors

Schedule I applies only to multistate entities. All multistate entities must complete and attach Schedule I to Form PR-1.

In most cases, multistate partnerships must compute Montana income taxable to partners by means of the apportionment factor calculated on Schedule I. The apportionment factor is the standard UDITPA (Uniform Division of Income for Tax Purposes Act) three-factor formula of property, payroll and sales.

When a partnership is engaged in a unitary business within and without Montana, the net income assignable to Montana must be determined using the apportionment factor. A partnership is unitary when the operations of the business within the state are dependent upon or contributory to the operations of the business outside the state. Every partnership carrying on a unitary business within and without Montana must complete Schedule I.

If the determination of income attributable to Montana is made on some basis other than the apportionment method, a full and detailed description of the operation and an explanation of the method proposed must accompany the return. However, Schedule I must be completed even in a case where a partnership uses an alternative method of determining Montana taxable income.

A detailed explanation of the apportionment factor calculation follows.

Line 1 – Property Factor. The property factor is defined as a fraction, the numerator being the average value of the partnership's real and tangible personal property owned or rented and used in Montana in the production of business income during the tax period and the denominator being the average value of all the partnership's real and tangible personal property owned or rented and used in the production of business income during the tax period.

Property owned by the partnership is valued at its original cost. Real and tangible personal property used in the business includes land, buildings, machinery, equipment, stocks of goods, inventories, and other tangible property actually used in connection with the production of business income to be apportioned, but it does not include money, accounts receivable or other intangible property, real property held for investment or nonbusiness purposes, or idle property of any nature.

Migratory property must be included in the numerator of the factor to the extent utilized in Montana.

Unless otherwise required by the Department of Revenue, the average value of owned property is determined by averaging the values at the beginning and ending of the tax period.

Property rented by the partnership must be valued at eight times the net annual rental rate. Rental expenses may not be averaged. The rental expenses for the current year must be used in the property factor.

Line 2 – Payroll Factor. The payroll factor is defined as a fraction, the numerator being the total amount paid in Montana during the tax period by the partnership for compensation attributable to the production of business income and the denominator being the total amount paid everywhere during the tax period for compensation attributable to the production of business income.

Payroll is paid in Montana if:

- Individual's service is performed entirely within the state;
- Individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or
- Some of the service is performed in the state and
 - the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state; or
 - the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in the state.

Line 3 – Sales Factor. "Sales" mean all gross receipts of the partnership exclusive of nonbusiness income. Sales factor is defined as a fraction, the numerator being the total sales of the partnership in Montana during the tax period and the denominator being the total sales of the partnership everywhere during the tax period.

Sales of tangible personal property are considered to be in the state if

- the property is delivered or shipped to a purchaser, other than the United States Government, or
- the sale by the partnership is not taxable in the state of the purchaser.

Sales other than sales of tangible personal property are considered to be in the state if

- the income-producing activity is performed in this state, or
- the income-producing activity is performed both in and outside this state and the greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

Line 4 – Sum of Factors. Add lines 1, 2 and 3 and enter the sum on line 4.

Line 5 – Apportionment Factor. Divide line 4 by the number of factors present. For example, if the partnership reports only a sales factor and a property factor, but does not have payroll to report a payroll factor in Montana or world wide, then the partnership would divide the sum of the factors, line 4 by 2, the total of the existing factors, rather than 3. Enter the apportionment factor on line 5 of Montana Schedule I and on form PR-1, line 19, page 1.
